FOR IMMEDIATE RELEASE

Election Systems & Software and Printelect Extend Partnership Through 2018

ES&S and Printelect today announced the extension of their long-term partnership for the maintenance and support of voting tabulation equipment and software. The deal will see Printelect extend its partnership until 2018, further strengthening its position as a provider of election systems and services.

As an Official Supplier of voting equipment for ES&S, Printelect will continue to support jurisdictions by maintaining systems in North Carolina, South Carolina and Virginia. In the new agreement, Printelect will maintain the rights to support and market the exclusive ES&S product line, and will continue to support the execution of fair and accurate elections amongst their current client base.

"Continuing our association with the most experienced election company in the world – Election Systems & Software - will allow us to further strengthen and extend our national market leadership," said Owen Andrews, CEO of Printelect. "We value ES&S' commitment to the innovative development of quality products and services, and look forward to supporting their mission of *Maintaining Voter Confidence and Enhancing the Voting Experience.*"

Commenting on the extension, Matt Nelson, Senior Vice President of Sales for ES&S said: "We are very pleased to be extending our long term partnership with Printelect. This extension proves the strength of our business relationship. Our continued collaboration will bring new opportunities for the promotion of the very best election products to a national audience."

About Printelect

Printelect is one of the Southeast's largest full-service elections solutions providers. Since the year 1902, Printelect has provided elections products and services, as well as ballot printing, to customers across the country. Printelect represents ES&S in North Carolina, South Carolina, and Virginia by selling, servicing and maintaining their election equipment.
